1 Purpose of The Project

Teen Guti game is the rural game of our country. Today this game almost lost from us. So, we have decided to bring the game in mobile or pc platform. From this people will still enjoy this game as like they enjoy earlier.

2 Full Description of the project

This is a console base game project. Two players can play this game at a time. It's basically a strategy type game. There are nine point on the game. Each player have particular one side. Each player have 3 guti on their base position. The game begin when a player move his first guti. If a player can match his three guti in middle position on the board or diagonally match teen guti or opposite side of the board if he can match three guti then the player is win and the game is over. There is no limit of movement until the game is over.

This game also has multi player option. And its also have AI. This game can be played by single player. This game also has online playing feature.

3 Feature of the project

1. Multi player game
2. Smooth Movement
3. Nice console base graphic
4. Time counter
5. Movement Counter
6. High score system
7. Save your game details
8. Login system
